

Federal Reserve System

§ 220.5

the creditor has not sufficiently determined that exceptional circumstances warrant such action. Applications shall be filed and acted upon prior to the end of the payment period or the expiration of any subsequent extension.

(4) *Satisfaction restriction.* Any transaction, position, or deposit that is used to satisfy one requirement under this part shall be unavailable to satisfy any other requirement.

(d) *Liquidation in lieu of deposit.* If any margin call is not met in full within the required time, the creditor shall liquidate securities sufficient to meet the margin call or to eliminate any margin deficiency existing on the day such liquidation is required, whichever is less. If the margin deficiency created or increased is \$1000 or less, no action need be taken by the creditor.

(e) *Withdrawals of cash or securities.*

(1) Cash or securities may be withdrawn from an account, except if:

(i) Additional cash or securities are required to be deposited into the account for a transaction on the same or a previous day; or

(ii) The withdrawal, together with other transactions, deposits, and withdrawals on the same day, would create or increase a margin deficiency.

(2) Margin excess may be withdrawn or may be transferred to the special memorandum account (§ 220.5) by making a single entry to that account which will represent a debit to the margin account and a credit to the special memorandum account.

(3) If a creditor does not receive a distribution of cash or securities which is payable with respect to any security in a margin account on the day it is payable and withdrawal would not be permitted under this paragraph (e), a withdrawal transaction shall be deemed to have occurred on the day the distribution is payable.

(f) *Interest, service charges, etc.* (1) Without regard to the other provisions of this section, the creditor, in its usual practice, may debit the following items to a margin account if they are considered in calculating the balance of such account:

(i) Interest charged on credit maintained in the margin account;

(ii) Premiums on securities borrowed in connection with short sales or to effect delivery;

(iii) Dividends, interest, or other distributions due on borrowed securities;

(iv) Communication or shipping charges with respect to transactions in the margin account; and

(v) Any other service charges which the creditor may impose.

(2) A creditor may permit interest, dividends, or other distributions credited to a margin account to be withdrawn from the account if:

(i) The withdrawal does not create or increase a margin deficiency in the account; or

(ii) The current market value of any securities withdrawn does not exceed 10 percent of the current market value of the security with respect to which they were distributed.

[Reg. T, 63 FR 2823, Jan. 16, 1998]

§ 220.5 Special memorandum account.

(a) A special memorandum account (SMA) may be maintained in conjunction with a margin account. A single entry amount may be used to represent both a credit to the SMA and a debit to the margin account. A transfer between the two accounts may be effected by an increase or reduction in the entry. When computing the equity in a margin account, the single entry amount shall be considered as a debit in the margin account. A payment to the customer or on the customer's behalf or a transfer to any of the customer's other accounts from the SMA reduces the single entry amount.

(b) The SMA may contain the following entries:

(1) Dividend and interest payments;

(2) Cash not required by this part, including cash deposited to meet a maintenance margin call or to meet any requirement of a self-regulatory organization that is not imposed by this part;

(3) Proceeds of a sale of securities or cash no longer required on any expired or liquidated security position that may be withdrawn under § 220.4(e); and

(4) Margin excess transferred from the margin account under § 220.4(e)(2).

[Reg. T, 63 FR 2824, Jan. 16, 1998]
